

# Workplace Violence Policy

The management of **Marrex Construction and Excavating LTD** is committed to the prevention of workplace violence and is ultimately responsible for worker health and safety. We will take whatever steps are reasonable to protect our workers from workplace violence from all sources.

Violent behavior in the workplace is unacceptable from anyone. This policy applies to all employees, clients, customers, delivery persons, volunteers or visitors. Everyone is expected to uphold this policy and to work together to prevent workplace violence.

There is a workplace violence program that implements this policy. It includes measures and procedures to protect workers from workplace violence, a means of summoning immediate assistance and a process for workers to report incidents, or raise concerns. Marrex Construction as the employer will ensure this policy and the supporting program are implemented and maintained and that all workers and supervisors have the appropriate information and instruction to protect them from violence in the workplace.

Supervisors will adhere to this policy and the supporting program. Supervisors are responsible for ensuring that measures and procedures are followed by workers and that workers have the information they need to protect themselves.

Every worker must work in compliance with this policy and the supporting program. All workers are encouraged to raise any concerns about workplace violence and to report any violent incidents or threats directly to any person of management so long as they do not pertain to the issue at hand. They may do so without haste and with confidence that there will be no negative consequences for the reports made

Marrex Construction management pledges to investigate and deal with all incidents and complaints of workplace violence in a fair and timely manner, respecting the privacy of all concerned as much as possible.
